

# THE STEAM QUEENS: WEEKLY VOCABULARY LIST

## MONDAY

Word: Force

Definition: A push or pull. Force is measured in units called newtons (N).

## TUESDAY

Word: Galaxy

Definition: A group of millions of stars held together by gravity, like the Milky Way.

## WEDNESDAY

Word: Habitat

Definition: A place where an organism lives. It is the natural home of a plant or animal.

## THURSDAY

Word: Insoluble

Definition: When a solid is unable to dissolve into a liquid.

## FRIDAY

Word: Joule

Definition: The unit for measuring energy or work.

**TASK:** Each week you will get new words from a different STEAM subject. Practice saying, writing, and using each word in a sentence. Also, tell us which subject you believe the words are from (sometimes words can fit in more than one). Share your sentences with us in the comment section!

**TIP:** Use [dictionary.com](https://www.dictionary.com) to help with pronunciation as needed.
